Few Recommendations for Election Commission/ Government to increase Voter Turn Out %

- ▶ **Flexible Voting Options :** Allow Voters to cast their vote before official date, providing flexibility and reducing long lines on that day.
- ▶ **Information Campaigns:** Conduct widespread informational campaigns to educate citizens about the importance of voting, how to register, and the voting process. Use various media channels, including social media, TV, and radio, to reach a broad audience.
- ▶ **Mail-in Voting:** Enable voters to submit their ballots by mail, which can be particularly beneficial for those who have difficulties accessing polling stations.
